Nurse Education Programs for Providers
Throughout Northeastern North Carolina,
and Tidewater Virginia.*

**March 2 - April 27
2010**

**Education Center at
Albemarle Health's
Albemarle Hospital**

A University Health Systems Affiliate

1144 N. Road Street • Elizabeth City, NC

In an effort to provide a comprehensive educational opportunity for medical professionals in northeastern North Carolina, and Tidewater Virginia, Albemarle Health's Nurse Education Council presents the "Review, Renew, Revive" series. This extended conference is intended for all medical professionals, including: EMS, medical office staff, acute care nurses, long term care providers, transporters, and any other individuals who wish to strengthen their patient care skills.

The course is structured with one day of educational offerings per week, over the span of six weeks, so that no matter what your schedule is, some, if not all, of the courses will be accessible for you. On each day of course offerings, there will be multiple classes available to meet the needs of subspecialties including: critical care, intermediate care, medical/surgical care, perioperative care, emergency care, oncology, renal, and maternal/child healthcare. You may select one session that interests you, or you may choose to stay the entire day.

Each session will be CEU approved, and will count towards NC Licensure renewal, as well as certification renewal requirements. All programs are FREE, and will be held in the Education Center at Albemarle Hospital, a University Health Systems Affiliate.

Our Instructors

Debrah N. Hutto, RN, BSN

Albemarle Hospital Nurse Educator, Step Down Unit

Deborah A. Alger, RN, BSN, CPAN

Patsy Evans, RN, BSN, CDE

Albemarle Hospital Diabetes Educator

Janette Whitley, RN

Albemarle Hospital Clinical Resource Coordinator, Pediatrics

March 2

Noon - 4:30 p.m.

CNA Skills Review

3.5 hr CEU

Description: This course is designed for hands-on, competency based skills evaluation for all CNA I and CNA II skills.

March 18

8:00 - 10:00 a.m.

Tubes, Stones & Surgical Knows: Urology

2.0 hr CEU

Description: This inservice is designed to provide the healthcare provider with basic information about kidney stones and prostate disease. It will discuss selected surgical procedures, and the post-op care of the tubes that are unique to urology surgery.

10:30 a.m. - 12:30 p.m.

Stick It, PICC It, and Save It if It Clots: PICC Care and Declotting

2.0 hr CEU

Description: All about Peripherally Inserted Central Catheters. This inservice will teach the healthcare provider about PICC lines, including how to care for them, troubleshooting, preventing infection, and how to better advocate for patients in need of a PICC line.

1:00 - 4:30 p.m.

When the Filter Fails: Renal Failure

3.0 hr CEU

Description: This course is designed to provide the participant with basic information about renal disease, its implications, complications, and treatments; and will provide information on end stage kidney disease, patient education issues, and common chemistry and renal lab values.

March 23

8:00 - 10:00 a.m.

Coronary Plumbing: Cardiac Catheterization & Intervention

2.0 hr CEU

Description: This inservice is designed to teach the healthcare provider the indications for, and value of, a cardiac catheterization. Cardiac catheterization and angiography are used to visualize the heart's chamber, valves, great vessels, and coronary arteries. These techniques are useful for obtaining pressure measurements to evaluate cardiac function and valve patency.

10:30 a.m. - 12:30 p.m.

Shake, Rattle, & Roll: Seizures

2.0 hr CEU

Description: The purpose of this inservice is to update healthcare provider's knowledge about identification, etiologies, treatment, and interventions for seizures, and the patients who have them.

1:00 - 4:00 p.m.

Hurting Hematology: Sickle Cell Disease

2.5 hr CEU

Description: This course is designed to provide the participant with an overview of sickle cell disease, complications of sickle cell anemia, what can be done to help prevent complications, and management of the sickle cell patient.

April 6

8:00 - 10:00 a.m.

Sweet Stuff: Diabetes

2.0 hr CEU

Description: This session will present a basic overview of treatment targets and pharmacologic therapies for diabetes, as well as current trends for inpatient hyperglycemia and hypoglycemia. This session will present case studies to enhance participant learning.

Continued on next page.

10:30 a.m. - 12:30 p.m.

How to Mend a Broken Heart: Heart Failure

2.0 hr CEU

Description: This inservice will define heart failure, including common signs and symptoms; list the treatments, including medications, for heart failure; and discuss heart failure core measure requirements.

1:00 - 4:00 p.m.

Oncology Review: Neoplastic Disease

2.5 hr CEU

Description: This course is designed to provide the participant with an overview of the basic concepts of cancer, and to enhance the expertise, effectiveness, and confidence of healthcare providers who work with oncology patients.

April 13

8:00 - 10:00 a.m.

Recognizing Red Flags: Abuse & Neglect

2.0 hr CEU

Description: This inservice is designed to teach the healthcare provider when to suspect abuse and neglect of patients of any age, and when and to which agency to report it.

10:30 a.m. - 12:30 p.m.

Strengthen Your Surgical Conscience: Aseptic Techniques

2.0 hr CEU

Description: Do you have a conscience — a surgical conscience, that is? This program is designed to teach the healthcare provider the standards for aseptic technique, and how to maintain a sterile field. Having a surgical conscience and implementing procedures for sterile technique are key to preventing wound infections.

1:00 - 5:00 p.m.

Beer, Banana Bags, and Benzos ... Oh My! Acute Alcohol Withdrawal

2.0 hr CEU

Description: This program will provide the healthcare providers with current clinical information on the treatment and management of patients experiencing acute alcohol or drug withdrawal.

April 27

8:00 - 10:30 a.m.

Getting to Know You:

Maximizing Outcomes & Reducing Risks— Preoperative Assessment

2.5 hr CEU

Description: In the classic film, “The King and I,” Anna and the King of Siam were at odds with one another until they finally got to know each other. In this inservice, we will learn about “getting to know” our patients by discussing the physiological and psychosocial aspects of the preoperative assessment. The preoperative assessment involves collecting data in order to identify actual or potential problems that may occur in the perioperative setting for developing a plan of care to establish desired outcomes.

10:30 a.m. - 12:30 p.m.

What’s Age Got to Do with It? Elderly Trauma

2.0 hr CEU

Description: This inservice is designed to help the healthcare provider understand differences in trauma in the elderly, and how physical and mental changes may deceive an underlying and very serious problem.

1:00 - 5:00 p.m.

You Don’t Have to be a Rocket Scientist ... Just a Brain Surgeon:

Intracranial Pressure

3.0 hr CEU

Description: The purpose of this program is for participants to learn about intracranial pressure (ICP) and its effects on patient outcomes, and to include pathophysiology of intracranial pressure (ICP) and how an elevated ICP relates to a patient’s clinical signs and symptoms.

To register, please fill out the attached REGISTRATION FORM, and fax it to (252) 384-4309.

Or, mail it to: Albemarle Hospital, Education Department, 1144 N. Road Street, Elizabeth City, NC 27909.

For more information, please call the Albemarle Hospital Education Department, at 384-4240.
