

We're Now

Albemarle Health is proud to offer free wireless Internet access in most patient rooms and high-traffic common areas throughout Albemarle Hospital, Regional Medical Center, and Regional Oncology Center.

To access the service:

You'll need a wireless device that supports WiFi™

- Open your wireless settings
- Look for **AHPUBLIC** wireless network — if not connected to this network, click **Connect**
- Open your browser (if you see a page indicating a problem with this website's security certificate — choose **Continue to This Website**)
- Read the Acceptable Use Agreement, and click **Accept** to connect to the Internet
- Please be courteous of others by turning off sound or using your headphones

(Please note: this connection is unsecured. If you have difficulty logging on to the wireless network, contact your wireless device manufacturer's help desk.)

We support IEEE 802.11g (54 Mbps data rate) and 802.11b (11 Mbps data rate) connections. As the configuration of each manufacturer's device is unique, please refer to your documentation for connection instructions. Albemarle Health staff cannot be responsible for assisting you in making changes to your devices.

WARNING: This free service is an open network provided for your convenience, and its use is at your own risk. It is available to the general public, and is NOT INHERENTLY SECURE. The providers cannot, and do not, guarantee the privacy of your data and communication while using the service. **Patient information and other confidential data IS NOT ACCESSIBLE through this connection.**

YOUR USE OF THIS SERVICE IS SOLELY AT YOUR OWN RISK.
